BRIEF INTRODUCTION

Ashmiyara has been formed with a dedicated group of individuals who wish to work relentlessly to improve the lives of neglected children in remote communities in India. We dedicate ourselves to providing humanitarian relief to villagers living in remote and distant areas. Medical services are seldom accessible in remotely located Indian villages and we have been working in India since 2010 with the support of business partners and general donors. Ashmiyara Society is very thankful to the donor community who aid in implementing long-term sustainable initiatives because of our vision and mission.

Ashmiyara is dedicated to improving the lives of neglected children and remote communities in INDIA and also helping poor Cancer Victim Children with their treatment. It has been our experience that humanitarian relief seldom reaches distant areas or village members. Yet sometimes they are the ones who need it the most. We are associated with different activities in our social life. Ashmiyara has been working in India since 2010 with the support of businessman partners and general donors. we are thankful to them. We also plan and implement long-term sustainable initiatives for children that ensure the get a peaceful life.
